

The El Paso Natural Gas Company (“EPNG”) Pipeline Right-of-Way will expire on December 31, 2014. EPNG has notified the Gila River Indian Community (the “Community”) of its interest to obtain a new Right-of-Way.

As a result, the Community has established a Negotiation Team to review and negotiate the terms of a new Right-of-Way. We invite all individual landowners affected by the Right-of-Way to attend the Kick-Off Meetings.

The Community will host the Kick-Off Meetings to discuss the applicable Federal and Community requirements, due diligence procedures, and the work to effectively assess the true value of the new EPNG Right-of-Way.

**Please Join Us!**
